ESET® Smart Security Version 4.0 Business Edition

Antivirus + Antispyware + Personal Firewall + Antispam + Remote Administrator

Maintain the highest level of security across all of your networks. ESET Smart Security® combines an advanced management console and award-winning ThreatSense® engine with firewall and antispam. Its fast and thorough scanner stops even SSL encrypted, network and email-borne threats. ESET's advanced heuristics protect your endpoints from known and new threats so your users can focus on business. Our proactive protection is so strong it stops new threats before other products realise they exist. Honored with a five star rating by SC Magazine (January 2009), and ranked highest on Forbes list of best-in-class antivirus products, ESET Smart Security has the proven power to protect your company's valuable data and reputation.

Key Features

Fully Integrated Protection	ESET Smart Security integrates our powerful antivirus engine with state-of-the-art personal firewall and antispam modules — offering comprehensive protection to the workstations across your network.
Extremely Light System Footprint	ESET Smart Security is so light your users will not even notice it running.
Advanced Archive Scanning	Threats don't always enter where you expect. ESET Smart Security can scan into layers of compressed files to ferret out malicious software. Users can control search depth, file size, archive size and timeout of archive scans.
Encrypted Communication Control	Scanning SSL-encrypted, HTTP and POP3 protocols and even defeats threats that hide from plain sight.
Enhanced Portable Computer Support	Enhanced settings for portable computers allows tasks to be postponed when the computer is running on battery power.
ESET SysRescue	Creates rescue CDs, DVDs or USB drives for cleaning unstable, infected systems.
ESET Sysinspector™ Integration	Administrators will love our advanced diagnostic tool for taking "deep-dive" snapshots of systems. Files and processes are color coded in scan logs to make it easy for IT administrators to identify potential threats in the system.
Uninstall Password Protection	Password protection that prevents ESET Smart Security from being uninstalled by unauthorised employees or visitors.
Extended Email Client Support	Native support for Microsoft Outlook, Microsoft Outlook Express, Mozilla Thunderbird, Windows Live Mail and Windows Mail makes messaging security simple. POP3 and IMAP protocols support delivers the same protection to other email clients.
ESET Self Defense and HIPS	ESET Smart Security has built-in technology to prevent malicious software from corrupting or disabling it. Unauthorised attempts to modify your OS, or applications, are actively blocked through a combination of advanced behavioral analysis and network filtering that monitor your system processes, files and registry keys.
Removable Media Access Control	Protects against infections from USB drives, floppies, CDs and DVDs.
Improved Cleaning	Cleaning of certain difficult to remove infections has been significantly improved.
Support for Cisco NA Control	Regulatory compliance is simplified with native support for Cisco NAC.
Mirror Updating	Mirror servers make it easy to manage distribution of signature database updates to all ESET products within the network, saving you valuable time and bandwidth.

Product Datasheet

Key Benefits

Proactive Protection	Award winning ThreatSense ⁺ technology combines advanced heuristics and malware signatures to deliver the best Zero-Day protection. A single integrated security solution with antispam and personal firewall features.
Precise Detection	Accurately identifies known and unknown threats. Consistently wins top awards from testing labs. Businesses will bypass false alarms that cause confusion, loss of time and resources.
Lightweight	Built to ensure fast system startup, utilising less system resources than competitors. More room for other business applications to run, increasing employee productivity.
Fast	Highly optimised code ensures file scanning and updates are quick and efficient, maximising work performance.
Remote Administration	Ensures hassle-free installation, centralised administration and seamless updating within a network environment. From five users to hundreds of thousands can be managed through Remote Administrator, saving resources, time and money.

Best Detection

- ESET is the leader in proactive threat protection, with more advanced +awards for superior threat detection than any other vendor since May, 2005 *
- ThreatSense[®] technology detects around 70% of new and unknown threats heuristically before a signature update is available. ESET finished in first place, detecting almost 30% more than the runner-up **
- ESET ThreatSense is the only antivirus technology that has not missed a single In-the-Wild Virus in rigorous Virus Bulletin VB100 testing since May, 1998 ***

ThreatSense⁺ Technology

Documentation

The product comes with the following documentation:

- Product Quick-Start Guide (PDF for download)
- Operating System Integrated Help (F1-key)

System Requirements

Processors supported:	Intel or AMD x86 / x64
Operating Systems:	Microsoft Windows 2000, Microsoft Windows XP, Microsoft Windows Vista, Microsoft Windows Server 2000, Microsoft Windows Server 2003, Microsoft Windows Server 2008
Memory:	48 MB
Disk Space (download):	32 MB (download) / 46 MB (installation)
